DID YOU KNOW?

The minimum legal age to purchase tobacco/nicotine in the US is...

21

*This includes e-cigarettes, cigarettes, and oral nicotine products like Zyn.

1. There is a common misconception that the legal age to purchase tobacco is still 18.[1]

2. Using tobacco before age 21 negatively impacts the brain's development.

3. Helping adolescents gain awareness of Tobacco 21 laws can discourage access and use.

4. Spreading the word to teens about Tobacco 21 can encourage youth to stay tobacco/nicotine free!

ABOUT NCEF

The Nevada Clean Energy Fund (NCEF) is a nonprofit organization created in 2017 by state legislation. NCEF supports a thriving, affordable, and accessible clean energy economy by providing financial and technical resources to Nevadans.

WHY CHOOSE US?

Our program offers Nevadans the opportunity to access financing for home improvements, energy efficiency, electrification, and clean energy in their home, reducing their monthly energy bills and improving health outcomes. RE-UP is especially well-suited for low- to middle-income households lacking credit history.

Contractor Vetting

Contractors working with NCEF have their licenses, insurance, and work quality verified to meet a high quality standard.

Education

NCEF offers technical knowledge and expertise on various federal and state financial rebates and incentives for clean energy and electrification installations.

We're Here to Help

NCEF works directly with loan applicants to guide them through the process, answer questions, and find solutions to any challenges along the way.
